

Module Information Sheet

Bo Bear
Visits Friends

A Brief Description

Join Bo Bear as she visits friends and helps Goldilocks bake a cake. Working with a full range of comparatives as they find the biggest, longest, thickest tools and materials for the job, this problem solving exercise introduces the children to the correct mathematical vocabulary for considering measures.

Tips on using “Bo Bear Visits Friends”

1. The adventure is linear in nature.
2. For each item, the children are presented with a choice of three. These vary by height, length, thickness etc.
3. Simply click on the appropriate bowl, spoon, or other item according to the instruction given.
4. If the incorrect answer is given, the child will be invited to try again.
5. A choice of colours for the icing of the finished cake, makes this an individually rewarding activity as the cake is shared out amongst the party at the end.

Curriculum Information

Foundation Stage:

Mathematical development.

The National Curriculum in England for Mathematics (KS1)

Ma3: 1a, 1d, 1f, 4a,

The Scotland 5-14 Guidelines for Mathematics

Number, money and measurement: Level A, B.

The Northern Ireland Curriculum for Mathematics (KS1)

Processes in Mathematics –

Using Mathematics: c.

Communicating Mathematically: a.

Number –

Measures: a.

The National Curriculum in Wales for Mathematics

Ma1: 2.1, 2.3.

Ma2: 4.1.
