

Module Information Sheet

Sea Stealers

A Brief Description

An illustrated seaside story presented at three levels providing a perfect starting point to consider the factors involved in writing for different audiences. Fifteen activities at each level support many literacy hour word level activities, showing a graded development from level to level. A range of science activities can also be developed from the activities

Tips on using “Sea Stealers”

1. On the cover page, select the version of the story you wish to follow. To help you choose, look at the examples of the text by clicking on “Information about all three versions”.
2. Move from page to page of the story by clicking on the page numbers in the grid, or using the “last” and “next” buttons.
3. Every page has a “Things To Do” area with an activity linked to the story.
4. Having completed the activity, use the buttons to check the answers, and then return to the story.
